Day Phone #: _____ Email address: _____

IRRIGATION SYSTEM INFORMATION*

of controllers on property: _____ total # of zones/stations: _____

New equipment was installed by: () Owner () Licensed Irrigator () Other** _____

*Rebate is for **existing** irrigation systems.

**Per state law, only the property owner or a state licensed irrigator may make repairs on irrigation systems.

New Equipment	Quantity	Cost	Maximum Rebate Amount	Rebate
Pressure reducer valve			\$100	
Rain, Freeze, and/or Soil Moisture Sensors			\$75 each	

Retrofits	No. Zones Converted	Maximum Rebate Amount per Zone	Rebate
Conversion of entire zone to multi-stream or rotary nozzles		\$50	
Conversion of a spray zone to drip		\$75	
Capping an entire zone		\$50	

Total Rebate: _____

Not to exceed \$400

AGREEMENT

- In order to qualify for the efficient irrigation rebate, you must contact the Water Conservation staff to schedule a free irrigation evaluation for the property *prior* to completing the work. See below for contact information.
- All items must be pre-approved before installation to qualify for the rebate.
- Dated and itemized sales receipt *must be* submitted with the program application within 60-days of purchase date to qualify.
- Rebate is one-time per year and is available on a first-come, first-served basis until funds have been expended.

I have read and agree to the terms. Signed: _____ Date: _____

EFFICIENT IRRIGATION REBATE PROGRAM GUIDELINES

Qualification:

- Program applicant must be a direct water customer of the City of Round Rock in good standing.
- Rebate is for **existing** systems only; not expansions or brand-new installations.

Application Procedure:

- **Rebated items must be pre-approved by City staff.** Contact us at phone number 671-2872 or email jwoods@round-rock.tx.us before installing equipment and to set up a pre-inspection of the system.
- Your application will be denied if you did not have a pre-inspection.
- Once pre-inspection is completed, implement upgrades.
- Once retrofits are completed, submit application and itemized receipts. (*Address below*)
- You will be contacted to schedule a final inspection.
- A rebate check will be mailed to you 2 - 4 weeks after the final inspection is completed.

Terms:

- Rebate for sensors and pressure reducer is limited to the cost of the *device(s) only* (not labor costs or tax) up to the maximum amounts specified **when purchased from an irrigator or retailer with a Round Rock address.** Devices purchased from a retailer outside of Round Rock qualify for 50% of the maximum rebate amount.
- Rebates for the retrofits are awarded on a zone or station basis. **ALL** of the heads within the zone must be converted in order to receive the rebate amount for that zone. If the costs of the retrofit are less than the maximum rebate amount, you will be rebated the amount of the product. (i.e. new nozzles for a zone cost \$25, you will be rebated \$25, not the full \$50 amount.)
- A **dated and itemized sales receipt** *must be* submitted with the program application within 60-days of purchase date to qualify.
- Maximum rebate amount is \$400 for residential; \$600 for multifamily and commercial properties.
- The City does not endorse specific brands or irrigators, nor is not responsible for the performance or repair of the new equipment.
- A *working rain shut-off device must be installed* at the property in order to qualify for any rebate. A new device would be eligible for the rebate.
- Rebate is one-time only and is available on a first-come, first-served basis until funds have been expended or Sept. 30, 2011, whichever comes first.

Explanation of Eligible Retrofits:

1. Conversion of spray or rotor zone to multi-stream nozzles—conversion of existing turf zone from traditional spray heads to multi-stream, rotating heads.
2. Converting a spray zone to drip—conversion of a bed or parkway strip (area between sidewalk & street) that is currently irrigated by pop-up irrigation. Drip system must have appropriate pressure regulation, a filter, & pressure release valve.
3. Capping a zone—the removal and capping of an existing zone. This may be because the area has been converted to hardscape, or plants are mature and do not require regular irrigation.

QUESTIONS OR TO SCHEDULE INSPECTION: Call 512-671-2872 or email jwoods@round-rock.tx.us

SUBMIT COMPLETED APPLICATION & RECEIPT TO: fax # 512-218-5563, email jwoods@round-rock.tx.us or mail Water Conservation, 2008 Enterprise Dr., Round Rock, TX 78664
